

A person with long, curly brown hair is seen from the back, wearing a blue denim jacket. They are carrying a black, textured leather bag with a silver-toned metal clasp and a small rectangular metal tag. The bag is slung over their shoulder. The background consists of lush green foliage and a clear blue sky.

How does it work?

Choose your color from one of the leather collections and choose your favorite bag design.

For example:

When you have made your choices, you can send an email to info@michellereine.com with the chosen bag design and color. We also would like to have your personal information such as your name, address and email address for the delivery of your bag.

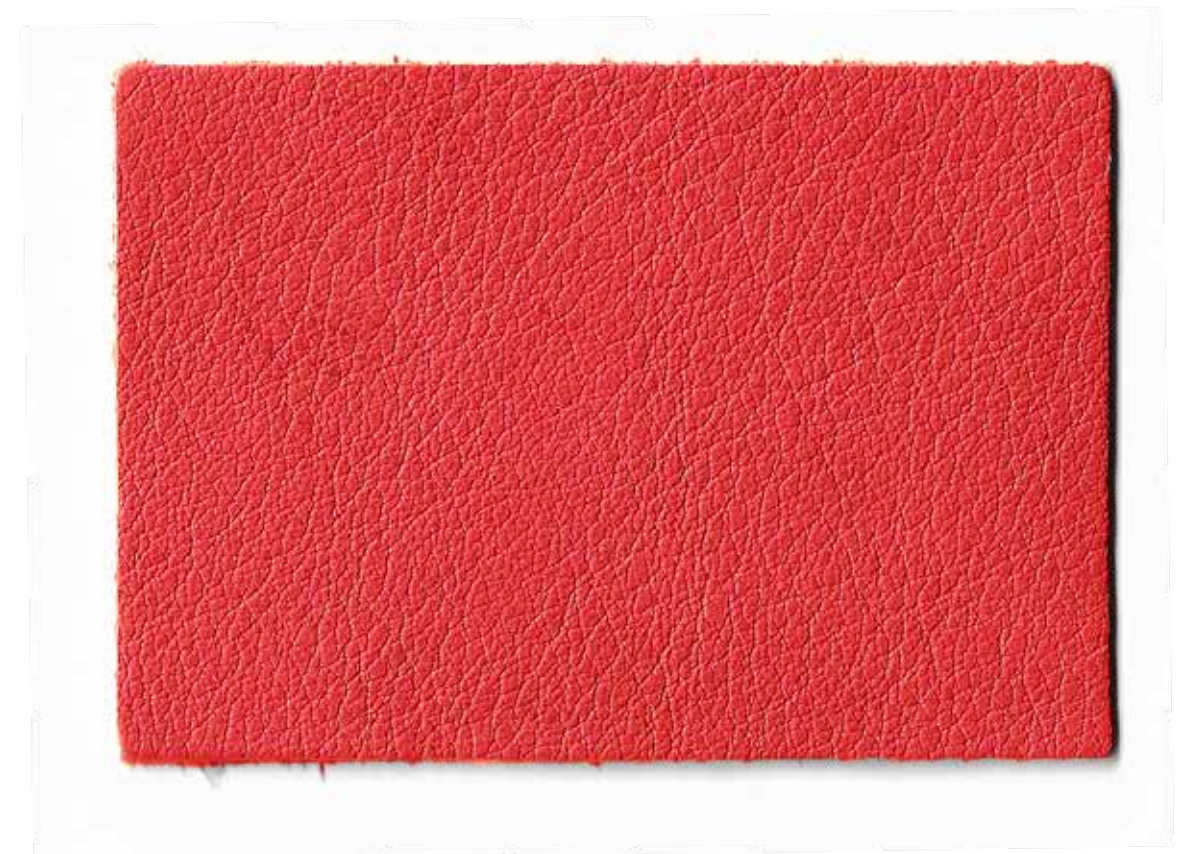

First we will make a quotation and when you have approved the quotation, we'll send you an invoice. After the payment of the invoice the design process starts. Via mail we will let you know in which part of the design process we are.

The delivery time will take approximately one month depending on leather availability. You'll receive an email with track&trace code when your bag leaves the studio.

Colors from the leather:

We have made every effort to display as accurately as possible the colours of our products that appear on this document. However, as computer monitors vary, we cannot guarantee that your monitor's display of any colour will be completely accurate. For this reason, we added the color code (#...) after the names. So you can check the exact color in photoshop or on google.

The consumer acknowledges that leather is a product that softens with use. Also coloring may fade over time and scratchers can appear on the product. We also advise to avoid wearing light colored clothing, as a leather bag can always shed color and this can affect, for example, your light colored clothes.
